

# BEYOND QUESTION<sup>®</sup>

## Grant Application

Beyond Question is committed to education and to helping teachers engage their students through the use of interactive classroom technology. To that end, and with the help of our partners and sponsors, Beyond Question has established a grant program to assist educators in acquiring our student response systems. Just as importantly, we have streamlined the grant application process down to a one-page document. There are no application fees and you will receive a response within 48 hours of submitting your request. If approved, you will be authorized to receive our thirty-remote class sets retailing at \$1,399 for as little as \$399 each. Grant program funds will cover the difference in purchase price.

### Overview of Grant Program

Beyond Question is an innovative company specializing in affordable student response systems that assist educators in interacting more effectively with students in the classroom. The company understands the challenge of keeping students involved and interested in learning while working on a tight budget and, in collaboration with our partners and sponsors, is very pleased to be able to offer financial assistance to teachers and administrators that are striving to accomplish these goals.

Student response systems allow an instructor to receive instant feedback from students by giving each student a handheld, remote control device that allows every member of the class to participate on an ongoing basis. These systems complement traditional teaching methods while accommodating students with different learning styles. The Beyond Question software is designed to be very easy to use, automatically adapting to the unique, individual teaching style of the instructor. Teachers can prepare rosters and lessons ahead of time with the software or use existing materials including handouts, transparencies, word processing documents, and PowerPoint<sup>®</sup> presentations.

Even without grant funds, a set of Beyond Question remotes costs less than a single set of textbooks, can easily be used with multiple classes, and engages students by focusing their attention. Beyond Question wants every teacher to have the opportunity to experience the kind of enjoyable, interactive learning environment that this technology makes possible, so the company-sponsored grant program is offering educators \$1,000 grants toward each purchase.

**Basic Class Set**     \$1,399 *retail*     \$399 *w/ Grant*

Includes 30 Remotes, 1 Receiver, Software,  
Instructor's Remote, Carrying Case and Batteries

### Eligibility

These grants are intended for educators and academic institutions (public or private) from kindergarten through college. Teachers, administrators, media specialists, trainers and other such personnel are eligible to receive this grant, but corporations are not. If you are not sure of your eligibility status, please contact us and we will be happy to assist you.

### Deadlines

These grants are available for a limited time, and submitted applications will be processed on a first come basis. If, for any reason, you are not ready to submit your grant application at this time and would like to be able to submit it at a later date, please contact us; we will be happy to work with you. Once your application is submitted, a grant authorization number will be issued within 48 hours, providing all criteria has been met.

### Processing Time

Your grant application will be processed within 48 hours of receipt. Fulfillment of your order will be completed based on the processing time indicated on the application form.

## Grant Application

Beyond Question has simplified the grant submission process. You will receive a response within 48 hours. To apply, please complete the following form and brief summary. By submitting your application, you are giving Beyond Question permission to share your ideas by reproducing some or all of your summary content on the company website or in other ways.

### Applicant

#### PLEASE READ BEFORE COMPLETING APPLICATION

This grant application includes interactive form fields that allow you to enter your information, save a copy of the PDF and then email it directly to us. **In order to do this, you will need the latest version of Adobe Reader installed (version 9 or higher).** The latest version is free and can be [downloaded here](#). Older versions will allow you to type your information onto the form but you will not be able to save the completed application for emailing. In this event, simply print the completed PFD and send via fax, regular mail or scan and email.
